

# DuPont City Hall and Community Center

DuPont , Washington

Converted an abandoned apartment into the DuPont City Hall.

Merritt spearheaded the effort to convert an abandoned apartment building, in the historic town center of DuPont, into the new home for the DuPont City Hall. This project included a new entry portico, turret, exterior reconstruction, and complete interior remodeling of the 5,000 square foot space. The transformation resulted in a new City Hall structure with a design consistent with that of this Historic City.
