

Pacific County Courthouse Exterior Renovations

South Bend, Washington

Merritt has worked closely with Pacific County Courthouse on a two phase exterior restoration of the historic building. In 2007 (Phase 1), Merritt finished the restoration of the historic wood windows and doors restoring them to their original grandeur.

Currently, Merritt has started Phase 2 of restoring the leaking copper roof. Merritt has finished the detailing of the roof and will be finalizing construction documents in the spring of 2008. Construction of the roof will begin in the summer of 2008.
