

Edmonds Operation and Maintenance Facility

Edmonds, Washington

This project is a 29,000 sq. ft. operations and maintenance facility (two separate buildings) for the City of Edmonds. The facility includes administration offices, crew areas, and shops in one building and a separate vehicle maintenance building. The site development consists of a 60-car parking lot, a bulk materials storage yard, fuel island, vector dewatering facility, and vehicle wash racks.

Two buildings...one that includes administration offices and the other a vehicle maintenance building.
