

Bonney Lake Public Safety Building

Bonney Lake, Washington

Merritt worked with the City and Community to define the project program, assisted with a successful bond issue, and led the design and construction. High value was received for the project since it was done within a tight schedule and budget constraints. The project redefined the neighborhood on the Old Sumner-Buckley highway. The program included the Police Department and Fire Department with shared space where practical. The design provided flexible expansion in the lower level with adjustments easily allowed on the main levels.

The Project Redefined the Neighborhood...
