

West Campus Gateway, Bellarmine Preparatory School

Tacoma, Washington

The gateway includes "gathering" spaces with canopies.

Merritt Arch designed a new entrance/gateway from the student parking lot into the heart of the campus. The gateway provides easy access to the center courtyard on the campus and, although it serves a practical use, it also remains true to the meaning of a courtyard. Alongside "gathering" spaces under canopies, the entrance welcomes the students, faculty, staff, and public into Bellarmine's home for academic excellence.
