

Colonial Fruit & Produce

Tacoma, Washington

Merritt Arch is in collaboration with the owners of the Colonial Fruit & Produce building on the Thea Foss Waterway in downtown Tacoma. Together the two entities are looking at mixed-use possibilities for the existing building. Merritt has compiled conceptual ideas to help the client in the decision they must make for the future of the building. The concepts help link the building to the waterway and to downtown Tacoma. In addition, Merritt is completing an in-depth study of the Thea Foss Waterway and the City of Tacoma's code and regulations for waterfront property.

The concepts help link the building to the waterway and to downtown Tacoma.
